

# Fluid mechanics

## Session organizers

1. Laura Battaglia, CIMEC, Universidad Nacional del Litoral, CONICET, Santa Fe, Argentina.
2. Miguel Coussirat, Laboratorio de Matemáticas Aplicadas (LAMA), Universidad Tecnológica Nacional, Facultad Regional Mendoza, Mendoza, Argentina.
3. Jorge D Elia, CIMEC, Universidad Nacional del Litoral, CONICET, Santa Fe, Argentina.
4. Carlos Sacco, Departamento Mecánica Aeronáutica, Facultad de Ingeniería, Instituto Universitario Aeronáutico, Cordoba, Argentina.

## Description

This session is aimed at disseminating original research and developments in numerical methods applied to Fluid Mechanics. The session is intended to encompass theoretical, experimental and computational fluid mechanics research and its application in fields such as aeronautics, astrophysics, biology, chemistry, mechanical engineering, hydraulics, meteorology, oceanography, geology, acoustics and combustion among others.
